Needing an Interpretation.

Opposition to the present Tariff has been one of the distinguishing traits of locofocoism for some time past. The Bangor Democrat, the Age, the Belfast Journal, and loco papers generally, have teemed with articles in opposition to the present Tariff. Notwithstanding all these efforts, such has been the light poured upon the subject, and such has been the favorable effect of the Tariff upon the industry and business of the country, that the people are becoming more and more in favor of the policy. This is every where seen and felt. What, then, are the loce party to do? They have by their organs throughout the country, heaped all sorts of odium upon the Tariff, and still it has gone on continually gaining the confidence and receiving the support of the people. What are the loco party to do? Why, just what might have been expected of a party destitute of political principles - skulkand dodge! We see this fully manifested in the resolutions passed at the late State Convention of that party held at Augusta. Instead of coming out with a bold declaration against the protect. ive policy or against the present tariff, or declaring themselves the friends of either or both, they attempt to get up a humbug resolution to mean anything or nothing, just as may suit the mar-

ket. Here it is:-"Resolved, That a high discriminating and oppressive Tariff; devised with reckless indilterence and unconcern for important oranches of industry, is in its nature and effects opposed to the welfare, and subversive of the best interests of the country, and every way obnoxious and reprehensible, and deserving the rebuke and condemnation of a just and enlightened patriot-

Such a resolve might be passed in any political convention of any party in the country. No man living is in tayor of such a tariff, and there Van Buren do. is therefore no significance, no point, no appli-No. 21, Middle Dication to such a resolve. It opposes no man's opinion and there is nothing in the resolve that No. 33, Middle Division. Waite Plantation, distinguishes the opinions of the loco party, up on the subject of the present turiff, from those of Reed Long Island any other party. Sullivan,

Such a resolution needs an interpreter, as we seek in vain throughout the proceedings for any declaration that the present tariff, in the minds of the sages who passed this resolution, is of the character set forth in the resolution. They had no courage to take that step. An honest, unmistakeable expression of opinion they dare not hazard before the people of this State.

We must seek therefore for an interpretation

of the resolution. We find the convention in matters where they thought it safe, declaring their opinions unequivocally, as in the case of opposition to a U.S. Bank, and in favor of the Sub-Treasury. We conclude, therefore, that this resolve was purposely made of a blind, flexible, slippery elm character, for the purpose of concealing their opinious as a matter of policy. This must appear evident to every man of coinmon sense who is not hood-winked by party -What, then, is the opinion they wish to conceal? Certainly not, that they are in favor of the present tariff, because this would be agreeable to the people. It must have been, then, that they are opposed to the protective policy and the present

Tariff. We are confirmed in this conclusion,

papers, and from the farther fact that the Convention passed a resolve approving of Mr may be learned from the following letter:

"Albany, Feb. 28, 1843. "My Dear Sir:-I thank you very kindly for plantation being a certificate in the words followyour friendly letter. I have at no time, nor any ing; where hesitated to express my decided disaprobation of the Tariff act of the last session as well in respect to the principles upon which it is founded, as to its details. In good time you shall have my views in respect to that and other subjects before the public. In the mean time, holden on the fourth Monday of January, being believe me to be. Very sincerely, Your friend and ob't servant MARTIN VAN BUREN."

The interpretation, then, that must necessarily be put upon the resolve of the loco convention of Maine is, that the convention is opposed Buren, but dared not openly express that opinion and hoped to cheat the people by sliding over an important matter without being committed to any policy. Such a course is timid, dishonest and truckling.

Official vote of the Seventh Congressional District-Recklessness of the Official Count-Mr. Robinson counted out!

The electors of the Seventh Congressional District have a hard time of it. They have not only to overcome a strong and desperate party, at the polls, but must also overcome the nice picking of the Governor and Council i The Councd have fixed it as follows. The Dubuque, Iowa, Transcript, gives in the following account a rare specimen of Western manners and of the Indian character. states that two burglars, confined in the jail in that town for robbery, broke out a few days since, and murder, also took an experimental stroll, They butt of the gun when it exploded, and a piece escaped by burning a hole through the floor of of it went on each side of him-his face is the room, which was made of two layers of oak

timber, in all about two feet thick. They must have gone to work at it scientifically, much in the same way that our fathers used to make their hominy troughs. The old Indian may have been 'master of ceremonies,' on this occasion, perhaps delivered a course of lectures on the subject, and he may yet live to be a candidate for professorship of the abstruse science of burning a hole through a log. However this may be, the three crawled out, and when the keeper went to looks 'after them' in the morning, they had 'passed away,'-they had been, but were not,-and a single Indian, who evidently preferred the room of

his companions to their company, stood 'solitary and alone. They had all become 'expunged, 12 o'clock to-morrow. and he could only point to the 'black line' upon the floor, in the centre of which they were last seen. When asked by some one why he did not go off with the rest, the Indian is said to have drawn himself up in his blanket in all his native dignity, and with a look of peculiar contempt, an. swered,-"Whoo!-white man put me in here. and he may come and take me out!" Things remained in this condition till some time in the af-

come and let him in !- After awhile he was dis covered by the Sheriff .-- The Indian accosted him with the usual "How d'do?"-and shivering in his blanket continued, "Sketcha sinnehee!"-(very cold)! and made signs to be let back into his old quarters. He was, of course, accommo dated. These indians, it will be remembered, are under sentence of death, and their execution

has been put off for some time only by 'the law's delay.' We have known no better illustration than this of the Indian character.

DR. TAYLOR'S BALSAM OF LIVER WORT. PRICE REDUCED.

DR. TAYLOR'S Balsam of Liverwort, from 375 Bowery, New York-for the cure of Coughs, Colds, Catarrhs, Asthma, Soreness of the Chest, Pain in the side and Breast, raising of Blood, Liver complaint, Bronchitis, and all those affections of Throat and Lungs which are a source of so much suffering and unarrested, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme and in some instances apparently almost hope less cases, often prescribe it in their practice, both as a palliative and a remedy, and with the Medical Faculty generally it has met with great approba-

CONSUMPTION.—The following remarks were taken from the last number of the Medical Magazine: "The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in consumptive cases, cannot fail exciting deep and thrilling interest throughout the world.

We have so long considered this disease (consumption) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence.

Certificates from the highest and most respectable sources, or persons who have been either greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we insert only the following CERTIFICATE.

Liver Complaint and General Dibility. I was given up by two physicians, and told to prepare for death. I was so weak I could not raise my hand to my head. I was in this low state, when a friend sent me a bottle of Dr. Taylor's Balsam of Liverwort, from 375 Bowery, and before I had used up the bottle, I was able to sit up in bed. By the further use I have completely regained my health. GEO. WELLS, 23 John-st.

For a common cold and cough, this is one of the very best remedies ever discovered.

N. B. There is a spurious and counterfeit arti

cle affoat; therefore be careful to get the genuine, which is from 375 Bowery, N. Y., and is tor sale by G. W. LADD, Agent, Bangor. Gmd&w

LORRAINE'S PILLS. OR VEGETABLE UNIVERSAL MEDICINE CURATIVE

French College of Health, in Paris. THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Univer

Sin-I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inutility of all-remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable rure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon re stored to a perfect state of health. J. E. NEWHALL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is wor

evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on which had great charins, and I enjoy ad one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

J. B. LIGHT.

Yours truly, Nov. 20th, 1841.

[From Boston Daily Mail.] Somehody wisely says, that a cap loaded with ewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

Sin-I have been effectually cured of a severe headache by the use of Lorraine's Pills. SARAH NOYES.

Sin-My daughter had all the threatening symp toms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills. Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

Family Medicine.

SIR-I have used Lorraine's Pilis in my family as family medicine, and I would most carnestly rec emmend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 2rom 25 to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL. Hartford, Com. July 8.

Lume Back.

Sarah Snow was cured of a lame back in one day, when she had been unable to dress persulf alone for Suran Jones of Boston, cured in 26 hours of lame

Sick Headache. Mrs. Bird of Providence says, that 'Lorraine's

Pills have proved a real besseng to her. It has surpassed any thing that his oven brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's

THE CONDITION The condition apon which nature gives health to man, is a watchful care to keep les stomach and bowels free from morbid and unhealthy accountacause they cleanse the bowels and purity the blood.

The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pil's depends upon extracts of over 50 different vegetables, all so admirably combined as to pursy, acurish and

invigorate the human system.

NEW PRINCIPLES OF PURGATION. CORNARO'S

Purifying and Preserving PILLS.

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CON-TINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most widespread and alarming character. They have reached through every vein and artery of our nation.-In every ofty, and village, and hamlet-in every State and Territory of our vast Republic, will be found those who have suffered, or who are still suffering from the injurious effects of this old system, of whose practical utility the disease, decay, and utter prostration of those who test it furnish the most condemning proofs!
COMMON DRASTIC PURGATION

Scours out the system by the most improper and violent means, and then leave it, weak, low, feeble debilitated, to regain its strength as best it may. Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed. Sometimes the digestive organs are deeply and permanently injured by this course and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURI-FYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz:

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remedy strikes a death blow to that abominable system, which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient. These Purifying and Preserving Pills are believed to constitute the perfection of medicine, being a UNIVERSAL VEGETABLE PURGA-TIVE, containing two great remedies combined, viz: One remedy to PURIFY FROM CORRUP-ION, and another to PRESERVE FROM INJU-RY AND DECAY. And for the purpose of attaining the highest de-

ree of purity in the preparation of these Pills, Dr Bradlee has, at a vast expenditure of time and money, invented and patented at Washington, a chemical and philosophical apparatus for distilling and refining vegetable extracts, called

THE SEVEN-FOLD FURNACE

A powerful and novel machine-having Seven Fires and Seven Alembics, with distilling, condensing, better, and now, by using six or eight bottles, contand evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine. The Baliamic and Preserving power of these Pills is also, by this invention, highly purified and refined, la; and I now recommend it to all similarly afflicted. and so mingled with the operative medicine, that it repairs all the injuries created by Purgation as soon as they are caused, and strongly fortifies the system against future corruption and decay. Let the public be no longer deceived by the ad-

vertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine which purges merely, without renovating or preserving, can be a periect remedy. For it is a fixed and immutable law of our being that there should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious, and injurious onlyand possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws, and they who follow it fall victims to their own folly, and too late

repent their temerity.

UPBEWARE OF UNRELIEVED PURGA-TION! Purge and Preserve, or do not attempt to

and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice Indigestion, Dyspepsia, Eruptions of the thy of notice.

"Messrs Sands-Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel hound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, there was no soundness in me.' From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swaim's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a In August last, by the advice of friends, I went

to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, hav ing spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself ing me less than ten dollars, I am well. Yes, I cerity and declare to the world, that after spending near \$5,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparli-Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure. Dr. D. Jayne's FAMILY MEDICINES.

JAYNE'S EXPECTORANT.

THIS invaluable medicine is daily effecting some of the most astoniabing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Whooping Cough, Croup or Hives, Consumption, Curonic Pleurisy, Hourseness, Pain and Soreness of the Breas, Difficulty of Breathing, and avery other discase of the LUNGS and BREAST, can from the crown of my head to the sole of my foot and do attent to its usefulness. BRONCHITIS, a dissunds to a premuture grave, under the mutaken name of CONSUMPTION, is always cured by it. The usua symptoms of this disease, Bronchitis, are Cough, Soreness of the Lange or Throat, Hourteness, Difficulty of Breathing, Asthma, Hectiv Fover, a Spitting up of Phlegm or Matter, and sometimes Blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run throuevery part of the Lungs. The Expectorant immediate ly suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a rure is soon effected.

It always cures ASTHMA. Two or three large doses

will cure the CROUP, or HIVES of children, in from 15 windles to an hour's time. It immediately sundues the vi lence of WHOOPING COUGH, and offects a speedy cure. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to perfect health by it.
It this Expectorian he given in the sommencement of
PLEURISY, INFLAUMATION OF THE LUNGS, or

in acute RHEUM ATISM, in doses sufficiently large, so as to cause a little nauses for some time, going to bed and covering up warm, it will produce perspiration, and subdue these affections at once. PRICE \$1,00.

I had not finished the first bottle, before a decided change was manifest over the bald part of the head, to which it was applied. A new growth of fine glossy hair, much like that of an infant, uppeared, and has continued to increase, and I have had it cut two or three times. I have recently commence t upon the third hot-tle, but have been a good deal irregular in the use of the Tonic from the first, and from this cause I apprehend the effect is at present less than it otherwise would

> I began the use of the Tonic with little or no faith that it would ever be successful on my head, though I felt entire confidence in your statements of what it had done for others; and I was as much surprised as de-lighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch lung at the times I have had it cut, on those parts which were the times I have had it cut, on those parts which were nearly destitute of any when you saw me. It was, however, very fine, though quite thick. I am flushed with sanguine hopes of final success, in the diligent use of your Tonic, which, amidst all the hair bumbugs which have been advertised in the papers, I am constrained to believe is what it claims to be, and that it will make the hair grow, and no mistake, at least on some heads. real excellence of the Medicine, to which man will be ready to add the testimonials of their own experience. But if further proof were needed of the value of the remedy it might be found in the fact that no Medicine in the market has been a shamelessly and repeatedly counterfeited. Igno rant, envious, avaricious, and unprincipled men bave in different places, manufactured a sportion pill, bearing a superficial resemblance to the tree pill, bearing a supposed either of impotent or deleter rious ingredients, which they have sought to foi upon the public as the veritable

Indian Vegetable Pills. These fraudulent Swindlers could never pass of their vile wares upon the public but for the com vance and assistance of self-styled respectable.
Druggists, who, for the sake of a little 'filth lucre," lend themselves to the monstrous and by hallowed system of imposition. The counterfeit of a popular medicine is more criminal than a comterfeiter of current money. The injuries dance the latter sink to nothing in comparison with the inflicted upon society by the former. We mig paint him wringing the mite from the hard han of invalid penury which is extended for the boon health, and receives instead the vile drug that pr tracts and aggravates disease, or to view it in hest aspect, suffers it to rage unchecked. Ho melancholy is the reflection that thousand, ma have been hurried to the grave by having a com terfeit substituted for the true Medicine; who h for the venal fraud might now be living in his health, the delight and hope of the social circle. All classes are interested in putting down the vile Counterfeiters. Let the Stores where they are sold

be marked and Shunned.

Let the virtuous indignation of the community administer to all concerned in these unfair practices a general and withering rebuke.
